To Bog or Not to Bog?

Natural Resource Wales have created this game to highlight the importance of sustainably managing our natural resources, focusing on bogs and wetland, and the multiple benefits they provide.

The Game...

The aim of the game is to raise awareness of the important role peat bogs play, and share key facts in a fun and interactive way.

How to play

The aim of the game is to become a bog expert by answering the questions correctly.

- One person stand with a "True" card, and the other person stand with a "False" card. The cards can also be propped up against something.
- The person asking the questions should hold the picture cards, and a copy of the "Statement and Answers sheet - To bog or not to bog".
- Ask those whom are taking part to stand in the middle between the "true" and "false" cards. If they think the statement is "true", they move to stand near the "True" card; and "False" the "False" card.
- Those who have guessed right remain in the game, and those that have not are out and should stand to the side.
